Expanding Trade Policies Bringing Prosperity Tide

Development Across Canada Now Unprecedented, Says Hon. J. H. King, Pointing Out That Such Periods of Growth Have Coincided With Liberal Rule; C. J. V. Spratt Re-elected President of Victoria Liberal As-

Policies of Premier Mackenzie King and his Goverhment aiming at developing the trade of Canada with the Empire and the world is bearing results in the mounting tide of unprecedented prosperity and general development now sweeping over Canada. Hon. J. H. King. Minister of Health and Pensions, declared last night, speaking at the annual meeting of the Victoria Liberal Association held in Sons of Canada Hall.

"The Government of Mackenzie King has been in office since 1921, and I think I can say and you will agree that the policies adopted by that Government have brought prosperity to Canada." Dr. King said. "Your financial papers show that we have prosperity inch as we have never had before."

Dr. King said that these policies were those laid down by Sir Wilfrid Laurier in 1896.

"These were policies that would develop trade, not only in Canada. You only get rich when you are dealing with people outside." Dr. King went on. "We believe in world trade to the profit of our people in Canada."

wheat, just as United States must sell outside its surplus cotton.

We know there have been two periods of prospectly in Care is and both coincide with the holdily of office by the Liberal Party—first that period from 1896 to 1911, and then the present period," he went on.

He pointed out that under Premier Mackenzie King the Government took the stand that it was necessary to curb Governmental expenditure and to develop trade throughout the Empire and the world, and this was embodied in the first budget of Hon. William Fielding. Toronto, Oct. 24—United States citizens resident in Canada have the right to exercise their franchise in the approaching presidential election, it was stated at the United States consulate here to-day. Saskatchewan Farmers Ask When Panama Pacific Storehouse Will Be Ready

Rosetown, Saskatchewan, and Victoria, British Columbia, were linked together yesterday in a way which may become increasingly common as this city develops as a grain shipping point. Communications between A. V. King, well-known local shoe dealer, and his brother W. G. King, wheat grower of Rosetown, and associates, all share-holders in the Panama Pacific Grain Terminals Limited, foreshadowed the movement of prairie grain through Victoria's new grain piant.

While in certain sections of British Columbia as taking place satisfactorily, he said, in other areas where the country has been burned over conditions are not so satisfactory.

A thorough survey for reforestation will have to be made. In this regard research work will also have to be carried on with a view to utilizing waste after logging operations have taken place, he said.

EVERYTHING REFORE IT In opening his address, the Premier pointed out that British Columbia had an area larger than the three Pacific Grain Terminals Limited, foreshadowed the movement of prairie grain through Victoria's new grain piant.

W. G. King, representing a number

windsor, Ont. Oct. 24—Don Strevett, youthful student pilot of the Border Cities Aero Ciub, fell from one of the cities Aero Ciub, fell from one of the cities Moth planes at 8 o'clock this morning.

Reports of the accident say Strevett was at the controls of the plane with the club instructor. R. H. Roundby, fiying with him. Suddenly the plane went into a vertical dive and Strevett fell out. Roundby also fell from the fuselage, but succeeded in catching the wing and pulled himself back into the plane, which was then flying upside down, and righted it and made a successful landing at the Walker Airport.

Winnipeg. Oct. 24—Plans of the Western Canada Airways to operate an air mail, express and passenger service from Winnipeg to Calgary and Edmonton cities will not be disrupted by the destruction of the company's big \$34.

A Super-Universal Fokker plane will replace the De Haviland and is scheduled to leave here to-morrow morning en route west in accordance with plans made before yesterday's erasis. The schedule between the cities are found in the company of the company.

Vancouver, Oct. 24.-Directors of the Pacific Great Eastern Railway are meeting to-day to discuss the deadlock that has arisen between the company and the municipality of West Vancouver relative to the continuance of North Vancouver-Whytecliffe section of the road

Whytecliffe section of the road.

The railway company wishes to abandon the North Shore service on the ground that it is losing money daily on it and that in view of motor-transportation facilities which have been established since the road was built, there is no longer any necessity to continue it.

The municipality is righting this move, taking the stand that under an agreement between the municipality and the company, the latter is compelled to continue the service.

The section involved in the discussion runs west from North Vancouver to Whytecliff, at the mouth of Howe Sound, at the head of which is Squamish, from where the P.G.E. Iruns north into the interior of the Province.

West Vancouver, Oct. 24—Reeve V. V. Vinson, discussing the proposed change in the Winter schedule of the Pacific Great Eastern Railway, which would or into operation. November 1. stated nothing definite had been settled. The reeve said there was an agreement between West aVncouver and the railway which stated the company must maintain a Winter service satisfactory

Personally he was satisfied with things as they were and suggested it would be a very poor precedent for any government to set if it tried to evade the agreement. The municipal council, he said, was ready to negotiate with the directors of the P.G.E., but the company must make the first move.

Reeve vinson pointed out the rail-road was one of the greatest assets the municipality had and if the Winter service between North Yancouver and Whytecliff was discontinued it would greatly handicap the residents.

Western Canada Airways Carry on Service Despite **Destruction of Machine**

Toronto, Oct. 24.—The legality of ex-orting, liquor from Canada to the prove the law of the United States. United States is one of the questions United States is one of the questions on which light will be shed by a judgment to be given by the appellate division of the Supreme Court of Ontario on an appeal. The Walkerville Brewing Company yesterday appealed from a judgment of Mr. Justice Raney dissolving an injunction which prevented Arthur Mayer and others from exporting any but the products of the company from their docks at Petit Cote. The Appeal Court reserved judgment.

The ground on which the injunction was dissolved was that it was based on a contract which the law could not recognize inashuch as it contemplated a breach of a law of another country. It was argued before the court yesterday that Canadian courts could not take cognizance of the laws of the United States.

The court complained it was asked to assume the state of the foreign foreign country.

The FRIVILEGE

"Why should we assume this law is for the benefit of the people, of the United States?" asked Mr. Justice Magee. "Would you go as far as to say we must not allow a breach of any law in the United States? Are we to say it is wrong to let them have the United States.

The court complained it was asked to assume the state of the foreign foreign country."

prove the law of the United States.

"SOME KIND OF PROHIBITION"

"I do not know the laws of the United States," said Mr. Justice Hodgins. "I know they have some kind of prohibition."

"So far as the enforcement is concerned, they do not seem to have," remarked J. H. Hodge, counsel for Mayer.

"It is clear law the courts of one country do not take judicial notice of the laws of a foreign country," said Mr. Justice Grant.

THEIR PRIVILEGE

"Why should we assume this law is

MARS NOW RADIOES MESSAGES London, Oct. 24.—After paying fiftysix cents a word for government radiograms to be sent to a woman on Mars and after listening for replies, Dr. Mansfield Robinson, telepathist, announced this morning that certain messages had been received, but would have to be decoded. Although the British postoffice service, which accepted the messages, would not guarantee their delivery, Dr. Robinson spent the early hours of this morning at the laboratory of a scientific friend, Professor A. M. Low, in Chiswick a suburb of London

Island Steadily Tilting, Denison Tells Astronomical

Reginald Hammond Receives Scholarship of \$100 at

the institution, F. Napler Denison, director declared, in an address before the Astronomical. Society last might. Mr. Denison pointed out that Victoria was in possession of the ploneer seismograph station for recording the continuous slow-earth movement in the world. It is an original line of research and has been in operation here for thirty years.

"We record an average of one earthquake a day," said Mr. Denison, showing lantern stides of various quake records. Gonzales was an ideal site for seismological study, owing to its rocky foundation," he said, and it was also very suitable for meteorological work. Seismological instruments, the director pointed out, were so sensitive that they recorded the slightest motion in the earth's crust, even the tides or the expanding rock owing to the sun's heat. A slight but constant titling of the land toward the southeast was shown on these instruments, he declared. The Kiwanis Scholarship of \$400 was last night presented to Reginald Hammond, a student at Victoria College, at a well-attended banquet of the Kiwanis Club, at the Empress Hotel.

Dr. William Russell, chairman of the Kiwanis education committee, reviewed the excellent record inade by Mr. Hammond and the student was a sortisman and dethe excellent record inade by Mr. Hammond, as student, sportsman and debater, during his attendance at the Victoria High School and his first year at Victoria College.

Accepting the schoolarship, Mr. Hammond expressed the hope that he would maintain the high standard set by earlier winners of the Kiwanis scholarship. On behalf of students at Victoria College he expressed appreciation of the interest of the Kiwanis Club in the institution.

LEECH RIVER PARK

Charts showing Victoria's advantage-ous climate were thrown on the screen, it being explained that this city derives great benefit in its weather through the proximity of the Sooke Hills. The West Coast rainfall of 120 inches per annum was changed to twenty-seven inches per annum for Victoria by the effect of these mountains. The city's sunshine record was also considerably higher than that of the average town of the Province.

the Gonzales instrument. There is a marked easterly suits up to me each year, he explained, then a ndency to move westward until Nomber. On the whole year there was decided tendency toward an east-ard swing. Similarly with north-uth pendulum observations, a tilting the south was indicated. This might the south was indicated. This might

Mr. Denison exhibited the radio time sender in use at the observatory, a device which he, himself, designed with the aid of wireless experts. He suggested that not only seamen but also these or land with radio sets could make use of the time signals sent at 10 s.m. and 7 p.m. daily.

Considerable time was spent by those present in observing the moon and the planet Jupiter through the telescope in the dome.

Manchester Guardian Says All Chief Powers Should Freely Negotiate

London, Oct. 24.—The British Government's White Paper, dealing with the Angio-French proposals for naval armament limitation, is described by The Manchester Guardian as "heavily padded with indifferent and uninter-

esting matter."

The Guardian adds: "Even if the padding is removed, there is little left that we did not know before. The so-called naval compromise is exactly as it came long ago from the French oress."

By-elections In

press."

The documents showing the French came round to the British proposals for naval disarmament in return for British support of the French aftitude toward trained army reserves receive special attention from The Guardian.

The naval compromise is a scrap of paper that should be dropped into the English Channel with all speed," says the newspaper.

"The naval compromise is a scrap of paper that should be dropped into the English Channel with all speed," says the newspaper.

LAND DISARMAMENT

"Indeed, while disarmament at sea remains important, disarmament on land, which has been so badly shirked, is more important because the world's peace is menaced far more by military than naval rivalries.

"It is essential the British Government shall inform the House of Commons that the naval compromise and the agreement with regard to reserves are not binding, and that there are no binding agreements or understanding with France.

"It is essential that further attempts

with France.

"It is essential that further attempts to arrange a compromise shall be made in conjunction with the United States, Japan and Italy no less than with France, and finally, it is essential that the immensely difficult problem of disarramment on land shall be tackled again."

Act of Violence Precedes Provincial By-election in Montreal Division

TAKEN BY GANG

Montreal, Oct. 24—A warrant charging a group of men "yet to be identified" with the robbery of the election lists from the committee rooms of Aldermen Lenglois, official Liberal candidate in the provincial by-election to-day in St. Mary's Division of Montreal, was issued to-day by Chief Justice Jerrault on information laid by Mr. Langlois and the captain of detectives, who is investigation the robbery, carried out at an early hour this morning.

bery, carried out at an early hour this morning.

The chief cierk of Alderman Lang-lois's committee-room staff reported that he and several others were at work at about 6 o'clock with the doors locked. Suddenly it was burst open and a gang of sbout twenty-five men rushed in. Some of them produced revolvers and they ransacked the office, taking all election lists and disconnecting the telephone.

One of the clerks rushed out on the street in an attempt to get the license number of the cars as the men departed, but the intruders fired on him and drove him back.

SYNOD MEETING **BRINGS PROTEST**

One of English Church Clergy of London Surprises Assembly

ASSEMBLY

London, Oct. 24 (Canadian Press Cable) — The first session of the Synod of the Diocese of London since the Reformation, attended by 1,200 London clergymen in St. Martin-in-the-Pields Church to-day under the chairmanship of the Bishop of London was marked by a dramatic incident.

After the opening prayers, and as Right Rev. Winnington Ingram was about to address the gathering, Rev. G. E. Miles, vicar of an East End church arose, and producing a document, read a "solemn protucts" against the holding of the synod. He termed it illegal and announced his refusal to participate, then turned and walked

CLERGY SURPRISED

In view of the shortness of time to the opening and consecration of the cathedral, and the fact that so many offers to provide stained glass had been already received, the building committee has invited designs for the windows from eminent artists in Canada, England, Scotland and Ireland. Details of costs would be given, the Bishop stated, to any who would communicate with him concerning the subject. The assembled clergy listened in astonishment to Mr. Miles's document, which declared the synod to be an illegal meeting, "called for an illegal purpose, namely to induce the clergy of the London Diocese to support the bishops in carrying out the declared policy of the episcopate to authorize the revised Prayer Book of 1928, which has been decisively rejected by the House of Commons."

ect.

Another committee had given much time and thought to the selection of the furniture needed for use in the new cathedral, the Bishop stated. It was proposed to use as much as possible of the furniture in the present wooden cathedral, except as individual donors made it possible to purchase new articles. This matter, however, had been referred to Christ Church parish committee. has been decisively rejected by the House of Commons."

The synod had been called to hear the Bishop of London's exposition of the policy of the issue of bishops in regard to the Prayer Book. The bishops in recently sent the clergymen a litter urging them to vote in favor of the bishops' proposals, which would leave it to the discretion of the clergymen and their parishes to use the revised Prayer Book if they so desired.

The gathering was held behind locked doors, guarded by policemen.

TWO BICYCLE WANDERERS Nova Scotia Coal READY TO START FROM

"How are you going to take off your clothes?" How do you expect to take a bath?" What if you have an accident?" and numerous other queries have been fired at the two bleyele "nature-seekers" since they appeared on the streets of the city handcuffed to their machines yesterday morning. An admiring crowd of youngsters visited the fire department headquarters last night to see the two road-bound travelers.

CLOTHES JUST HANG

"This sweater just has to hang on the chain when I take it off," said Fraser this morning. "There is nothing else to take off. Riding is much easier when we just have the one article of clothes on."

De Gagnier and Fraser are anxious to visit Butchart's Gardens before leaving Vancouver Island cycled out to Brentwood this afternoon.

noon.

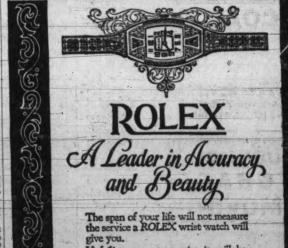

They are getting used to the handcuffs and chains already, although the business of packing their their bicycles everywhere they go is somewhat tiresome. The beards which De Gagnier predicted they would be wearing when they finished the tour are beginning to appear and they expect their faces to soon disappear behind a big black growth.

For the Prairies

Winnipeg. Oct. 24 People in the Maritime Provinces at the present time are giving thought to the possibility that Maritime coal can be shipped to prairie points through Fort Churchili, on the completion of the Hudson Bay Rallway, Hance J. Logan, K.C. of Amherst, N.S., stated here in an interview.

Serious opposition to the Hudson Bay Rallway project had never developed in the Maritimes, he said, and those interested in shipping maritime coal to the bay port believed there would be many grain vessels going back to

CHINA AWAKE AND ORDERLY

NATIONALIST CHINA HAS MADE greater progress towards a realization of the m of Dr. Sun Yat Sen than many sceptics thought possible two years ago. It may be too much to say that she has put all her troubles behind her; but she has announced herself as ready for advice and has invited five economic experts from the United States to assist her to put her financial house in order.

This news is of more vital concern to Canada than may appear on the surface. It is an indication that those in control in China are determined to show to the rest of the world that their nation now is fully awake and rapidly grooming herself for the role in international affairs to which she is entitled. Our business with China at present is not large, but with order restored and government proceeding on more effective lines, Canadian exporters soon should find a lucrative market in the rejuvenated republic.

In this regard, however, it will not do for our nanufacturers to wait for the business to come to them. That is not the attitude which the producers across the border adopt. They go after it. Ours will have to do the same. Incidentally, the Dominion Department of Trade and Commerce may find it good business to increase its representation in the Orient. At present Canada is represented by two Trade Commissioners over there-one in China and the other in Japan-to attract business from nearly 500,000,000 people!

WHAT LOWER DUTIES DID

ESS THAN THREE YEARS AGO A delegation of Canadian automobile manufacturers waited upon Premier King and Hon, James A. Robb at Ottawa and told them that if the Minister of Finance persisted in his proposal to reduce the duty on certain cars admitted to this country from the United States, the industry as far as Canada was concerned soon would die a natural death through lack of business. Neither the Prime Minister nor Mr. Robb was impressed with the argument to which they listened. The delegation was told that the policy which the Government had approved would not be changed. How sound was that policy is borne out by the following facts:

During the first eight months of this year 181,459 cars were manufactured and assembled in Canada, as compared with 150,321 during the corresponding period of last year. The factory sale value of these cars amounted to \$116,209,341, compared with \$98,757,035 in 1927. Of the cars made this year 129,458 were made for Canadian consumption, the remainder, 51,801, being

Here is approximately an increase of twenty per cent. in production for the first eight months of 1928 over the corresponding period of last year. If the Prime Minister and Mr. Robb had allowed themselves to be persuaded by the delegation which waited on them, the Canadian people would have been obliged to pay more for their cars, and we venture to suggest that a reduced demand would have been responsible for considerable unemployment in the in-

THE NAVAL PACT

IT IS NOT SURPRISING THAT THE press of Great Britain should speak plainly about the manner in which the British Foreign Office conducted the negotiations and completed the naval agreement with France. The newspapers and the public now see that there was no need for secrecy at all if the document in question had merely involved a working arrangement for the reduction in number and tonnage of certain fighting craft. But there was more in the undertaking than this., In a separate agreement it was shown that France had agreed to Britain's proposal in respect of submarine limitation only on the understanding that Britain would leave France free to determine her own military policies. In other words, the British Foreign Office. has put Britain on record in favor of the continuance of France's present system of armaments on land, particularly as they apply to the army reserves. It is this concession to French pressure which demanded secrecy, and it obviously is this concession which has aroused the ire of the British press and public. No doubt the British people would have preferred no agreement at all rather than one determined by such a condition.

The kindest thing that has been said by any Old Country newspaper friendly to the Baldwin Government has perhaps come from The London Daily Telegraph. It credits the Foreign Office with good intentions; but other journals outspokenly condemn the whole business and suggest that the spirit of Locarno has been violently disturbed and the clock of disarmament put far back. These may be extreme views and events may not warrant the alarm which they imply. But the negotiations and the condition which Britain was obliged to accept as the price of the pact, whatever it may be worth, obviously have

injected a discordant note into the peaceful atmosere which the ceremony of the signing of the Kellogg anti-war pact last August had created throu out the world. A virtual admission by Great Britain to France that she is apprehensive over submarines. and the companion admission by France that she would feel insecure with her present land forces reduced. Government Declines to Foldo not constitute an encouraging commentary upon Europe's progress towards the ideal of international which humanity is pinning its hopes upon which the future of our civilization very largely depends.

As nearly all the important newspapers of Great Britain have pointed out, the negotiation of this pact with France was no compliment to the outside world. Nor is it surprising that the Washington Government should fail to discover in its terms any real basis for a new discussion on reduction of armaments generally. The element of secrecy which entered into the negotiations, of course, is just as obnoxious to the large body of public opinion in Great Britain as it is to those who consider these matters from a New World standpoint. What will happen to the pact is not clear at this stage. No doubt the Baldwin Government, and particularly the Foreign Office, will come in for a merry time at the next session of Parliament-the last before the general election.

"BORROW, BOOM AND 'BUST' "

TT LOOKS AS IF THE GENERAL ELECtion in New Zealand is going to be a merry fight between the Government forces led by Premier Coates and the United Party led by former Premier Sir Joseph Ward. The latter is advocating a seneme of settlement which would involve something like \$350,000,000 and Mr. Coates has told the electors that that is simply a policy of "Borrow, Boom and

New Zealand is a prosperous country. She has led the world in a good deal of her progressive legislation; but she has a population of less than 1,400,000, hardly sufficient, it would seem, to accept a liability, even for the profitable business of judicious settlement, of \$350,000,000. The people of Canada though this was a large amount when it represented their national debt before the war, in spite of the fact that more than seven millions of people were here to guarantee its payment.

Premier Coates says that posterity would be left to clean up the fragments of this policy of "Borrow. Boom and Bust. In other words, he obviously is seized with the importance of an immigration and settlement programme which is based upon practical business lines rather than one marked for its spectacular features alone. Naturally New Zealand would like to double her population; but certain rigid principles demand consideration.

"A WONDERFUL WELCOME"

NOT MANY OF THE MEN WHO CAME to Canada with the miner-harvesters have had time to write to the newspapers, save the few who did not come to work, but those who have given their impressions already seem to be thoroughly at home in their new surroundings. Here is one letter typical of a number that have appeared in the British

I am writing this letter to let you know how I am getting on in Canada. After a splendid voyage and a wonderful train journey of 2,500 miles up country, I have got settled at last. I have got agood job with a good farmer, plenty of work to do but you get well treated if you are a good workdo but you get well treated if you are a good workman; and, gee, boy! what a wonderful country
Canada is. I cannot describe it in words, and the
people, they are spiendid. We got a wonderful welcome when we landed, in fact, I am that satisfied
with it that I don't think I shall come back to
England again unless it is for a holiday, when I
can afford one, and I don't think that will be long,
because there are plenty of prospects for the right
man here to get on. You can tell any man who
thinks of going to Canada that it will be the finest
day's work he will ever do. Once again, Sir, it is
the most wonderful country I have ever seen-

This letter was published in a Yorkshire daily. the writer expressing his thanks to the Canadian Government Agent at York for facilitating his migration to this country. Obviously he is made of the right kind of stuff and, as such, of course, he found the warmest of welcomes. There is room here for plenty more like him-and they, too, would find a similarly "wonderful welcome."

WHAT OTHER PAPERS SAY

THE SIMCOE POSTMASTERSHIP

The London Advertiser

A point studiously ignored by newspapers which have sensationalized the affair is that Mr. Whitaker is in receipt of 100 per cent. disability allowance—nearly \$135 a month. It is impossible to refute the logic of Mr. Venoit's assertion that if he is able to do the work that would be required of him in the Simcoe office he is not 100 per cent. disabled, and is consequently receiving more pension than he is entitled to get. The London Advertiser

The Kingston Whig-Standard The Whig-Standard has refrained from commenting on the Simose matter until it got the facts from some authoritative source for fear of doing an injustice to returned soldier, but having read Mr. Veniot's prepared statement we feel that a good deal of the criti-cism that has been leveled at him by The Globe and The London Free Fress—both unfriendly to the King government—has been the result of a misunderstand-

ing of the case. According to the regulations of the Post Office Department, and also of the Civil Service Act, the inspector is required to make a report. After going into all the details of the case, he reported that he did not consider-Mr. Whitaker physically qualified for the position. The Pensions Board had rated him as being totally disabled, thereby enabling him to draw a pension for full disability. The minister declared that, if this rating was correct, he was not physically fit for the position of postmaster. If he were not totally disabled then he ought not to be drawing a pension for complete disability. That argument is, of course, incontrovertible. The Brantford Expositor

SHEEP DAMAGE

low Policy of Payment

A clash has occurred between Surrey Municipality and the Bri-Columbia Attorney-General's Department over an interpretation of the Sheep Protection Act and sheep by dogs in recent cases in which the Government declines to follow the policy of the previous administration and pay for these

Two claims for damages to poultry and sheep filed with Surrey Council had been forwarded to the Provincial Government for payment, according to custom, on the ground that as the municipality does not collect dog taxes the responsibility for so doing rests upon the Provincial Government, the money so collected being used to re-imburse farmers whose livestock suffers from attacks by dogs. HAS RESPONSIBILITY

Oscar Bass. Departmental Solicitor. has notified the municipality that its failure to collect taxes to vover possible damage done to livestock does not relieve it of responsibility. There is, he argues, a common law liability attaching to corporations as well as to individuals who allow or maintain dangerous or destructive agencies on their premises when, on damage or loss being sustained, a case of action arises. Many other municipalities in British Columbia are effected by the Reive Reid of Sussay and Light Company.

Reeve Reid of Surrey came over to lictoria vesterday, at the request of he council, to try to reach an amic-ble agreement with Attorney-General

"Does Last Longer" Phone 139

Vancouver, Oct. 24—Although A. H.
MacNeill, K.C., on behalf of the West
Kootenay Power and Light Company
Limited sought immediate dissolution
of an injunction, which enjoined his
client from cutting off electric power
for the workings at Copper Mountain
and Allenby of the Granby Consolidated Mining, Smelting and Power
Company Limited, the British Columbia Court of Appeal yesterday afternoon refused the application.
"We will not dissolve the injunction
until we decide the rights of the parties," announced Chief Justice Macdonald.

Judgment was reserved by the Court of Appeal.

PAYMENT FOR POWER Mr. MacNeill contended the distri-bution of electricity by his client in the Granby Company's area was illegal, that the rates of the West Kootenay

Referendum on Scheme
Formally Asked From City
Council

Aviation Class at Night School
in Process of Formation

A formal request from the City
School Board to the City Council for
provision for a referendum on the proposed district technical school at the
December municipal elections will go
forward, as a result of a decision
reached by the trustees at a special
meeting last evening.

That is mere trifling, said E. C.
Mayers, K.C., counsel with C. H. Locke
for the Granby Company. "We paid
their bill when it came in at the end
of September, and we said that if their
rates were increased by any board we
would be willing to pow the difference.
I glive my undertaking that we will pay
as we have paid since the injunction
was granted."

WILL DECIDE BOTH

An 'interim injunction had been

reached by the trustees at a special meeting last evening.

The plans of the board call for a twenty-two-room structure, with a large auditorium, and four small brick annexes for workshops. The estimated cost of the building is \$200,000 and of the equipment and furniture \$50,000. Towards the \$250,000 expenditure the city would received Provincial and Feedral Government grants to a total of \$105,000.

COST OF SCHEME

If the ratepayers pass the by-law when it goes before the electorate for the second time. Victoria and district municipalities will receive a technical school institution at a cost of \$1,50 for every \$2.50 expended. The actual cost to the city would be \$145,000, to which must be added approximately \$5,000 for the financing fee and cost of raise ing the money, or \$150,000 in all.

A three-fifths vote of those entitled to ballot on money by-laws would be necessary to pass the measure.

AVIATION CLASSES

We have no business to deal with that phase of the contract between the companies.

POSITION OF BOARD

Am interim injunction had been granted by Mr. Justice Murphy of the Courn had been granted by Mr. Justice Murphy of the Court of Appeal, pending determination of an appeal, continued the interim injunction. Linked up with this issue was the case in which the Granty Company sought prerogative writ of mandamus to compet the West Kootenay Company to supply electric other.

Mr. MacNetill complained the rates were based on the price of copper and he had requested the Granby Company to furnish him with statements were based on the price paid it by the Tacoms Smelter, but the statements were not forthcoming.

"We have no business to deal with that phase of the case," interposed Chief Justice Macdonaid. "Mr. Mayers undertakes that, you will be paid on the same terms as in the past."

POSITION OF BOARD

POSITION OF BOARD

The contract between the companies expired on September I, explained Mr. Mayers, and the two had a dispute over the rates to be charged in the future. The dispute was referred to a board of investigation and the West Kootenay Company, he said, persuaded the board it had no jurisdiction to pass on the matter. If the Court of Appeal should hold there was an obligation on the West Kootenay Company to supply power, then, according to Mr. Mayers, the board would have to fix the rates. When the board fixed the rates, the Granby Company, he said, would pay the difference.

"You are in the happy position of be-

Safe, speedy relief

RHEUMATISM

Templeton's Rheumatic Capsules are the one remedy that unfailingly relieves the agony of Rheumatism, Sciatica, Neuralgia, Neuritis and Lumbago. The proof is in the grateful letters we receive, such as that from Fred C. Irwin, Smithville, Ont.

Smithville, Ont.

"One year and sine months I lay on my back: Doctor bills and other expenses amounted to over \$1200 and I WAS NO BETTER. A friend advised me to try T-R-C's. After 3 doess I was able to sit up in bed. By the time I had taken ten I was practically well."

T-R-C's act the common sense way on Rheumatism, etc. They enable you to get rid of the poisonous causes. A wonderful remedy. No harmful drugs. Let T-R-C's relieve YOUR pain. 50c and \$1 at all druggists.

SEATTLE VESSEL

Yacht Anna Helen, Used as Traveling Dentist Shop

Juneau, Alaska, Oct. 24.—The yacht Anna Helen, owned by Dr. W. F. Good of Seattle, and used as a traveling dentitist shop in Alaskan waters, was destroyed by fire Monday off the entrance of Funter Bay. Engine backfire caused the outbreak.

All dental equipment was lost. Good and the engineer were taken from the burning boat and brought here yesterday on the gasboat Gioria. The yacht was built in Seattle five years ago to compete in the Pacific yacht races to Honolulu. It cost about \$20,000.

Homes TONIGHT

What will happen in your house-hold tonight if Baby can't sleep, and won't stop crying? It may be serious, if you've only medicines meant for grown-ups. You needn't worry, if you have a bottle of Castoria. A you have a bottle of Castoria. A few drops, and the little one is comforted; a few moments, and all is serene once more. Yet you have given nothing but a vegetable product which doctors approve for the tiniest babies. Just a gentle, soothing preparation the very taste of which tells you it is harmless.

Castoria is always a boon in the home where there are children of any age; for the little everyday ills, fresful spells, or any upset. And a blessing when a sudden attack of colic or acute constipation demands relief. Never be without Castoria; some mothers keep an extra bottle put

YEAR HOIST BURNED IN NORTH TO HERRING **BAN SOUGHT**

Provincial Government Asks Delay on Receipt of Protests

Operators Say They Have Spent \$200,000 For This Season's Catch

prohibiting the use of herring for reduction purposes has been recommended by the Provincial Government following the protest lodged by Barkley Sound operators.

lodged by Barkley Sound operators.

The operators pointed out that \$200,000 had been spent in preparing for handling herring on the West Coast this year and the sudden ban would mean a heavy financial loss. After consideration of the objections by Hon. S. L. Howe, Commissioner of Fisheries, and J. P. Babcock, Deputy Commissioner of Fisheries, the following wire was sent last night to W. A. Found, Deputy Minister of Fisheries at Ottawa:

A Dependable Railway

HEAVY MOVEMENT

IN CARGO SHIPS

Vessels Will Load Lumber and Discharge General Cargo at Outer Docks

Cargo at Outer Docks

Although the port of Victoria will not see a transpacific passenger liner until the sailing of the Empress of Canada for the Orient on November 1, there will be a heavy movement in freight and cargo vessels, from now until the end of the month. King Brothers, local shipping agents, announced this morning.

This movement commenced at noon to-day with the arrival of the Norway Pacific motorship Borgaa from Antwerp and other European ports. She berthed at the Rithet Piers and before leaving for Vancouver discharged 150 tons of steel here.

The freighter Seapool, which is now at the C.P.S. mill in the upper inner harbor, will clear early this evening for Port Alberni, where she will finish loading for the Atlantic Coast. The Seapool is one of the largest ships ever to come into the upper inner harbor, and when she leaves this evening she will be drawing twenty-two feet of water.

To discharge oil at the E. & N. oil tanks in Esquimalt, the tanker Montebello is expected some time to-night.

Sunday afternoon will see the arrival of the Japanese lumber carrier Buyo Maru at the Rithet Piers to load lumber for Japanese ports. The Buyo will be here two or three days.

On October 30 the motorship Indian is expected to deek to load lumber for ports in the West Indies, and on November 1 the Tyne Maru will be here to load lumber for the Japanese coast.

Helpless With Pain In His Back

Vancouver man thinks Gin Pills wonderful

Right in the midst of the local Horse Show, Mr. J. S. Russell, of Vancouver, B.C., was completely laid up by severe pains in the small of his back. He could not sit on a chair, let alone on a horse. "I was compelled to go to bed," he says.

Here a most awkward and painful problem was solved by a friend who advised Gin Pills, which quickly cor-rected the trouble according to Mr. Russell, whose letter ends—"and I was able to ride again in 24 hours. Gin Pills are wonderful."

Gin Pills are wonderful.

Gin Pills positively give relief, not only in cases of severe backache, but in even more acute kidney conditions. Gin Pills soothe the inflamed kidneys and end the misery. How much better to obtain a 50c. box from your druggist than to take chances. The symptoms of kidney trouble are unmistakable-backache, dizziness, headaches, swollen joints, brick dust in urine, spots before the eyes, a burning sensation attendant on scanty or too frequent urination. National Drug & Chemical Co. of Canada Limited, Toronto, Canada.

Dont Risk the Embarrassment of Perspiration Odour

The one to two pints of perspiration which, according to physicians, come through the pores daily, is natural . . . and healthful . . . but perspiration odour is not only unnecessary but extremely "bad form."

This unpleasant odour is seldom recognized by the offender, but everyone else notices it.

Lifebuoy is sure protection

Besides being a superior toilet soap, Lifebuoy, through its creamy, gentle antiseptic lather cleanses and purifies the millions of tiny pores and keeps the skin sweet, offering safety from perspiration odour from bath to bath.

Don't try to cover up perspiration odour. Prevent it with Lifebuoy Soap for face, hands and bath. It costs no more.

The Native Daughters of B. C. Post No. 3 held their monthly social at the Victoria Club. Campbell Building, last evening. The evening was spent with games and community singing and Mrs. S. J. Stapledon gave an interesting report of her visit last month to Leachtown at the unveiling of the historic monument.

Maurice Colbourne to Be Guest of Municipal I.O.D.E. Monday

Maurice Colbourne, head of the Maurice Colbourne Players, who are to present a series of George Bernard Shaw plays at the Royal Victoria Theatre next week, will speak at a gathering to be held in the Amphion Hall on Monday at 3 p.m. under the auspices of the Municipal Chapter, I.O.E. His subject will be "The Real Bernard Shaw."

Mr. Colbourne is a young Englishman, whose attachment to Canada has sprung from his family's historical connection with the Dominion. He is a direct descendant of Sir John Colbourne, first Governor-General of Upper Canada and founder of Upper Canada and founder of Upper Canada college, Mr. Colbourne is a young veteran of the Great War, a graduate of Oxford University, and a governor of the Shakespeare Memorial Theatre at Stratford-on-Avon.

He came first to Canada as a member of the road company of "The Dover Road," and has played in several New York productions of note, including the world premiers of "Saint Joan" in 1923, and the elaborate production of "The Merchant of Venice" in which Miss Ethel Barrymore was starred, and Mr. Colbourne featured in the role of Bassanio.

Your Baby and Mine By MYRTLE MEYER ELDRED

BABY TO OBEY

A young mother writes—'I would like to teach my child to mind. She is starting to walk around chairs and touching and pulling everything in the house. This makes double work for me. When I tell her in a stern voice to stop, or to put something back, she just laughs at me. Is she too young to discipline?

"When she wants something I don't want her to have, she just screams, and whipping does no good.

"Please tell me some course to follow, beginning from early morning, at bedtime, and incidents that occur during the day, to make her strong, healthy and dutiful. Hoping to see this answer soon."

ANSWER

This is the age-old story that begins in every household when the baby is able to get about by himself and assert his own personality. You must expect that discipline or making a child healthy, dutful and obedient, can possibly be taught in one easy Jesson. The

is able to get about by himself and assert his own personality. You mush; a capted that discipline or making a child healthy, dutiful and obedient, can possibly be taught in one easy lesson. The difficulty is in evern thinting at a light course in so small a space. Miss Joyce Wolton En-thusiastically Cheered By Large Audience

Centenarian Says
High Life Wicked

Montreal, Oct. 24.—"The world has changed a lot in the last 100 years, and this high life is wicked," according to Mrs. C. Caron, who has just celebrated her one hundredth birthday. She was born in Chateauguay, the daughter of Capt. Neil Morrison and Lady Elizabeth Morrison. She was married at the age of fifteen. Her husband has been deal for forty-five years, and she is living here with two bachelor sons. She had twelve children in all.

Duncan Church

Bazaar Planned

A large gathering of Guiders and others attended the second and, final demonstration Guide meeting, held last evening at headquarters, Langley Street, by Miss Joyce Wolton, head of training at Foxleese, England, and holder with enthusiasm in the varied programme arranged by Miss Wolton to demonstrate the underlying principles of Guiding.

Games play an important part in fostering the spirit of fair play and sportsmanship which is an essential of Guide life, and each one, however simple and fun-giving, Miss Wolton explained, was designed to help in developing alerthess of mind and nimbleness of hands and limbs, or dexterity and meekness of execution and in the case of outdoor games a love of nature and knowledge of nature love. THREE PHASES

Duncan, Oct. 23. The president, Mrs. C. M. French, president at the regular monthly meeting of the Women's Association of the Duncan United Church held last week. Afrangements for the annual bazaar were completed. Mrs. J. Seeley was given charge of the tea arrangements.

The complities in charge of the tea arrangements.

A question box provided a convenient method for the Guiders present to avail themselves of helpful advice from Missimoliton on some knotty points, and some interesting discussions regulted.

The last part of the meeting was devoted to singing, the choruses being varied from joily camp songs, sea chanteys and spirited marching songs to tender lullables and concluding with the Guide evensong, "Taps."

PHOTO PRESENTED

Miss Wolton was tendered hearty

Miss Wolton was tendered hearty cheers before her departure and the Guiders, forming an informal guard, waited to sing a good-bye chorus and give another round of cheers as she entered her car. She will depart to-day for Edmonton, where she will hold further training classes.

A memento of her visit was presented to headquarters with a gracious little speech by Miss Unwin, in the shape of a splendid group of the Foxlesee camp, in which Miss Wolton occupies a prominent place. The group is appropriately framed and was enthusiastically received by the Guiders.

MY KITCHEN NOTEBOOK

by mary Blake

Domestic Science Counselor

My Secret for

Finer-Textured Cakes I must confess that I haven't always been successful in the making of cake. I suspect that I possessed more zeal than skill—thoroughness rather than definess. But when I learned to exercise my beating proclivities at the start than the sum of the start that the sum of t

in the creaming together of butter and sugar, and to exhibit restraint at the sugar, and to exhibit restaurant finish by stirring only a moment after the final ingredients were added, my cakes improved.

cakes improved.

But the greatest improvement I have ever made in cakes has been through the use of Carnation Milk. Besides being evaporated to double richness and sterilized for safekeeping, it is "homogenized," the cream content broken up into minute particles and distributed throughout every drop. As a result, cakes are not only rich with this uniformly distributed, double share of cream, but because of the fineness of the particles the texture is exceptionally smooth, fragile and fine.

Carnation gives similar results in all

exceptionally smooth, fragile and fine.

Carnation gives similar results in all cookery, a creamy smoothness to sauces, candies and ice cream, a richness to soups, and a delicate texture to puddings, cakes and waffles that even the best of bottled milk cannot equal. Try this convenient, economical and dependable form of milk—it's just pure whole milk with about half the natural water removed and nothing added.

Write for the free Carnation Cook Book—"My Hundred Favorite Recipes." Address Carnation Milk Products Co., Limited, 134 Abbott Street, Vancouver, B.C.

It Makes

VIGHEES

Better Cake

Carnation Date Cake

24 cup shortening, 34 cup sugar, 1 egg, 3 tbsp. Carnation Milk with enough water to make 34 cup liquid, 11 cups pastry flour, 3 tsp. baking powder, pinch of salt, 1 tsp. cinnamon, 14 tsp. vanilla, 14 cup chopped dates, 1 cup broken nut meats. Cream shortening; add sugar gradually and continue creaming; add beaten egg and beat mixture hard until it becomes a very light color and creamy. Add very light color and creamy, Add cup flour and stir until well mixed.
Measure flour after sifting once. Dredge nuts and dates with a little of the flour and add to mixture. Last, sift in rest of flour, baking powder, salt and cin-namon; add diluted milk and flavoring all at once; stir vigorously for 11/2

Pour batter immediately into pan which has been oiled and dusted with thin film of flour. Place in 300°F. (slow) oven for first 10 minutes; then elevate to 375°F. (moderate). Bake about 45 minutes. When done it shrinks from sides of pan and springs up when pressed with finger.

Remove from the pan, cool and ice with Carnation Icing.

Carnation Icing

THE perfect cake is

to all cooking.

Carnation Milk

1½ cups confectioners' sugar, 1 then butter, 2 then Carnation Milk, ½ tsr vanilla. Cream butter and sifte sugar, add Carnation and vanilla. Bea

Port Needs Are Canvassed Fully

Rail Connection at Ocean Piers, Adjustments to Piers, and the Will to Step Out After Business Are Chief Essentials of Growth of Cargo Tonnage Here, City Is

rails at the ocean piers, for the distribution to Eastern points in Canada of world freights landed

That shipping masters in charge of \$1,000,000 floating investments now feared to dock at Ogden Point, where flat-nosed cement piers might be rammed by the prows of their vessels on any fluke of wind and tide.

That the interests of the port

That the interests of the port would best be served by equal-handed development in favor of both transcontinental railroads, with a monopoly to neither. That for a comparatively light expenditure the essential require-ments at the port could be in-stalled, paving the way for exten-sions of present facilities as busi-ness demands.

ness demands.

That Victoria lost the valuable supply business of the West Coast because mainland merchants proved to be more on their toes to ship goods by return vessels.

That there was no limit to the increase in tonnage which would follow a wise development of port facilities here by encouraging the docking of vessels and providing docking of vessels and providing for the handling of their in transit cargoes to Eastern Points.

The rebuilding of the ferry slip in the same site, but at a different angle so as to avoid present winds and tides, and with a sufficient width to accommodate all barges, was also advocated.

Much of the programme was that already advanced to the Federal authorities through the industrial committee and the port development group of the Chamber of Commerce. Other suggestions were received at the meeting that did not appear in any representaiso be required.

The rebuilding of the ferry slip in developed.

IDEAS INVITED

In opening the meeting, Alderman Litchfield stated the city was impressed with the necessity for doing something to promote port business to the end that the community would hold its own in the fast-growing development of Pacific commerce. The experience of shipping men was valuable to the city to that end, and suggestions were invited from all who felt free to speak on the question. A Federal engineer would be in Victoria shortly, and before that, some definite plan should be formulated for his at-

eral engineer would be in Victoria shortly, and before that, some definite plan should be formulated for his attention, stated the chairman.

George McGregor, of the Victoria Tugboat Company, spoke in favor of a transfer pier, where inter-rall connection between both transcontinental roads could be affected at a minimum cost. He held no brief for either rall-road, and was in a sense a ompetitor of both, continued Mr. McGregor, who stressed the urgent need of some provision for the handling of, car barges in the transhipment of steamer cargoes for points East in Canada.

Such a provision, he said, would enable Victoria to handle rail freights om any part of the world for delivery to any point in Canada. There could be little growth in tonnage of the cargoes handled until this was provided, and both roads should be approached on the matter, he urged.

C.P.R. SHUT OUT.

An outspoken analysis of the business handled at the port of Victoria, and some sound advice as to the removal of obvious defects that now exist, featured the port conference held under the auspices of the industrial committee at the City Council Chamber yesterday afternoon.

The meeting was attended by a representative body of shipping men, who thanked the City for initiating the discussion, and promised further support in the preparation of a reasoned plan for submission to the proper authorities. Salient points made at the meeting were as follows:

DEFECTS ASSERTED

That Victoria could look for little growth in the tonnage handled until it could offer easy access to both C.N.R. and C.P.R. rails at the ocean plers, for the distribution to Eastern points in Canada of world freights landed

tional and the Canadian Pacific Railways. Raising the Ogden Point piers, and their protection with buffers he also advised. ON WHICH SIDE ?

Mr. Moffat advanced the suggestion that the dock had been built on the wrong side of the port, and that future dock work should be confined to the north side, at the Industrial Reserve, or near West Bay. This point, he submitted, should be brought to the attention of whoever made the marine works survey. Capt. George Kirkendale, shipping

and harbor master, classed as vital the alteration of the piers ends at Ogden Point. Masters feared to dock at the piers, where the slightest mischance would send their ships crashing into a flat-nosed wall of concrete on the end of each pier. The Admiral Oriental line withdrew from the pier for that reason, he had been informed, and other mas-ters had also mentioned it. Many ships had been badly scratched in a like manner, he said. A solid caisson of piles off the ends of the docks would change this feature at slight cost, said the shipping master.

ALTER FERRY SLIP SUGGESTIONS MADE

The suggestions favored by the shipping men included provision for a transfer pier where Canadian National and Canadian Pacific rails would be inter-connected, both to afford access to all ocean piers, and so facilitate handling cargoes for all points East.

The driving of pile caissons in a rounded or V-shaped formation at the ends of the Ogden Point piers would remove at slight cost the greatest factor in their disuse at the present date, it was stated. Raising the height of the piers by several feet, and their lining with wooden bumpers would also be required.

The city would be wise to drop its advocacy of a third concrete pier between the two existing sets of ocean piers, continued Capt. Kirkendale, as a further pier would make use of the ferry slip impossible. The ferry slip impossible the ferry slip impossible the ferry slip impossible the ferry slip impossible the ferry slip impossible. The ferry slip impossible the ferry slip impossible the ferry slip impossible. The ferry slip impossible the ferry slip impossible the ferry slip impossible. Southwest swells made the use of the present ferry slip difficult, he concluded. Stuart Yales spoke in favor of encouraging rail facilities, pointing to the fact that the Victoria market stopped short at Duncan at present, and that, to his mind, there was no reason for that condition, except that mainland services were more highly The city would be wise to drop its

sties through the industrial committee and the port development group of the Chamber of Commerce. Other suggestions were received at the meeting that did not appear in any representations yet made, and these were noted for further study.

IDEAS INVITED

Capt. Kirkendale said business was a matter for the Victoria merchants to take up. In the past the merchants had not shown themselves so lively as vancouver merchants had done. West coast supplies for the fishery and other plants had in the beginning come to Victoria, but dilatory results had led to the complete capture of the

The best cough remedy that money to any point in Canada. There could be little growth in tonnage of the cargoes handled until this was provided, and both roads should be approached on the matter, he urged.

C.P.R. SHUT OUT

Speaking on the present car ferry slip. Mr. McGregor stated he had examined it for his own satisfaction, and found that it was of little use in regard to the type of barges at bresent used on the coast. The slip as at present constituted shut out the C.P.R. "hose barges were all too large to be handled here, he stated.

W. M. Allan, general agent for the Pacific Steamship Company, classified he needs of the port under two main readings. The Ogden Point piers were ar too low, had sunk in parts, and equired raising by several feet, to his ind. They should also be protected by wooden bumpers, and buffers at the pier ends.

RAIL CONNECTION VITAL

Rail connection between both railways and linking all docks was easential, he stressed, and would have to be provided if any material growth were

many present needs and would also relieve congestion on the Causeway.

John Jardine, of Esquimalt, told of many years interest in the harbor works, and offered to lay plans he had on file before the committee.

HARBOR BOARD

William Ivel advanced his suggestion for the creation of the Victoria Harbor Commission. Harbor development, he said; was a special business. He had agiven great study to that business, and auggested that the \$50,000,000 of sasks, in wested in harbor work here and at Esquimalt would be security for bond and debenture loans on which to create working funds for harbor improve, ments. Every other port on the coast had a commission, he submitted finally.

At the close of the discussion, Alderman Litchfield, William Marchant, John had strended, and decired many valuables suggestions had been received from the shipping men of the port.

ETHY IS THANKED

William M. Allan, dean of shipping men in Victoria for many years, expressed the thanks of the delegates to United States, died here last night.

Hockey Following In FAST, CLEVER Steps of Baseball Is "Big Business" Game

Will Soon Cease to Be a Sport; Purchase of John Ross Roach, Toronto Goal Tender, by New York Rangers for More Than \$25,000 Is Example; Eddie Shore, Greatest of Defence Players, Reports to Boston Bruins; "Punch" Broadbent Sold to New York Americans by Ottawa

How closely professional hockey is following in the footsteps of professional baseball towards "big business" and away from sport was demonstrated re cently when Col. John H. Hamond, president of the New York Rangers, announced the purchase of John Ross Roach, Toronto Maple Leafs' goaltender, for more than \$25,000.

At the same time it was disclosed that the services of base Trottier, former Toronto University star, are valued so high by owners of professional hockey teams that the Boston Bruins have paid \$10,000 to the Toronto Maple Leafs merely for the privilege of negotiating with the young amateur.

amateur.

The Rangers also sought to negotiate with Dave Trottier, who is willing to turn professional if paid his price, the highest ever asked by any hockey player, amateur or professional. They found out that the Toronto club. They found out that the Toronto club, unable to meet Trottier's terms, had sold the privilege of talking to the former college and Olympic star to President Adams of the Boston club. Professional hockey can well afford to pay astonishing prices, since the public has indicated its willingness to the public has indicated its willingness to the public has indicated its willingness.

oot the bill.
The New York Rangers, now world's The New York Rangers, now world's champions, and holding the whip hand at Madison Square Garden, took in \$330,000 in gate receipts at their twenty-two home games last season. This season, opening November 15, with the first New York home game November 18, the Bangers expect receipts in excess of \$400,000.

The average hockey spectator pays \$2 for his ticket, and a winning club plays to capacity houses.

The camps of the Montreal Maroom and the Canadiens, National Hockey League clubs, are buzzing with activity as the managers and trainers make preparations for the start of the train

With the exception of "Red" Dutton with the exception of "Red" Dutton, all members of the Maroons have reported to Manager Eddie Gerard at the Forum. Besides all of last year's regulars, there are new players, including McBride, the defence player from Port William; Hicks, from Stratford, Ont. and Elliott, a right winger from Stratford,

Some enjoyable games of badminton were played recently at the Emmanuel Baptist School room by the, Emmanuel Baptist Church Club and the Christ Church Cathedral Club, the Emmanuel Baptist Club winning fourteen sets to The Maroons are all down close to laying weight. Nels Stewart and Dunc Munro are carrying a little superfluous heft, but not so much that heavy exercise will be required to trim them

ronto Maple Leaf hockey team have arrived in Toronto.

"Shorty" Horne, who has been up in the North Country prospecting all Summer, has arrived and signed a contract. Horne is bronzed as brown as a berry and looks in excellent condition. He weighs 175 pounds and says he expects his greatest season this Winter. Andy Blair, the University of Manitobastar, who was in the East recently, has left for his home in Winnipes to complete some details in connection with moving down to Toronto for the Winter.

Blair is a tall chap, weighing about 180 pounds, and those who have seen 180 pounds.

0 pounds and those who have seen in action compare him to Hugh axton, centre player of the Toronto das, Olympic champions. Blair has en maying senior hockey for the past ree years, although he is only twenty.

He was eligible for tunior hockey.

BOXING WILL

Fine Exhibition Expected When Fielding Meets Eber Saturday Night

Best of Local Fighters Are Matched Against Stiff Outside Competition

Manager Joe Bayley is doing everything to speed up the box-ing tactics of his protege, Tommy Fielding, for his tenround bout with "Bad News" Bobby Eber, scheduled for Saturday night at the Sons of Canada Hall. Joe realizes that speed will be a great factor in

deciding the contest.

Joe has mapped out training rules which eliminates everything that has a tendency to slow up a fighter, and he is specializing on skipping and shadow boxing which should put Fielding in condition to travel at top speed throughout the ten rounds. Bayley realizes that in Eber, Fielding is encountering his stiffest opposition so far and in order to take a step forward in the puglistic game and obtain matches with boys of the Vic. Foley type Fielding must emerge from Saturday's bout with flying—colors. Otherwise he must stay with the predeciding the contest. Otherwise he must stay with the liminary boys for a while longer NEEDS TO BE CLEVER

NEEDS TO BE CLEVER
Fielding is undoubtedly the cleverest
and speedlest boxer that has ever been
developed here but whether he is fast
enough to outbox Eber who is credited
with being one of the shiftiest and
cleverest boxers in Canada, remains to
be seen. It looks as if the fans are
going to witness a bout in which fast,
clever boxing will take the place of
the haphazard type of glove throwing
which has predominated most of the
bouts that have been staged here of
late.

OTHER GOOD BOUTS

OTHER GOCD BOUTS

The balance of the card of events seems to be particularly good as no expense has been spared by the club in procuring the best talent available. Johnny McDonald and Tommy McBeigh, who are boxing under Jack Allen's management, have been secured to appear against the Davies boys, and it is predicted that the local cracks are in for a tough battle. McDonald and Albie Davies appeared on the Duncan programme when the decision was given to Davies after four very even rounds of victous milling. The Duncan fans booed the decision as they figured that it should have been a draw. McDonald insisted on a return bout and he was promised the chance at the first bouts to be staged by the club.

Defeat Christ Church Club A CLASSY LAD

Tommy McBeigh who opposes Jumbo Davies, makes his first appearance before local fans. According to persons who have seen him in action he is one of the classiest boys that has ever been turned out in Vancouver. He is a speedy, heady boxer who employs a great variety of punches, and it is predicted that the flaxen haired Davies have in for a tough time.

Tim Keist will try conclusions once re with the clever Jackie Newman. Every time these boys have stepped into the ring in the past the fans have witnessed a wonderful bout and it is expected that Saturday's engagement will prove to be just as thrilling as their other bouts.

Keen Competition Expected

Foresters.
7.50—Intermediate "A" men, College
vs. Centennial.
8.40—Senior "B" ladies, Keating vs.
New Method Laundry.
9.20—Senior "C" men, Fourex vs.

It is expected that Wisconsin, New Jersey, Connecticut, Louisiana, Rhode Island, Maryland and two city commissions in North Carolina—Charlotte ICE CADNI missions in North Carolina—Charlotte and Greensboro—with probably Michigan will follow the lead of the Canadian authorities. Texas and Alabama, with Florida, if boxing is legalized there on November 6, are expected to join the insurgents.

It is proposed to make New York the foundation stone of the new organization by overcoming the objections to national affiliation which has always kept the state independent of the NBA.

New York, Oct. 24—The opening wedge of a new alignment of the powers governing boxing throughout the United States and Canada was riven yesterday in the rooms of the New York State Athletic Commission. As an aftermath of the turnoil and charges of steam rolling that followed election of officers in the recent annual convention of the National Boxing Association at Toronto. Thomas Murphy, sociation at Toronto. Thomas Murphy, deposed vice-president of the Na.A., and head of the Canadian Boxing Fedration opened negotiations with the local board for a working agreement with the Dominion organization. With him were Harry Price, member 1

Victoria Basketball Association's programme for the Centennial gym to night. Two Senior "C" men's games one Intermediate "A" men's and one Senior "B" ladies' will be the order of games.

In the Senior "C" men's the first game will be between the JBAA. and Poresters, and should be a humdinger from the first whistle.

The Victoria College, so far undefeated in their section are slated to phopose the Centennials and should win, although a close game is looked for.

Baltimore, Md. Oct. 24—The Cana-

Foresters.

Baltimore, Md., Oct. 24—The Canadlan Boxing and the New Method Laundry fighting to chalk up their first victory of the season, while Fourex will be out to take the Navy into camp in the final game.

The starting times are as follows:
7.00—Senior "C" men. J.B.A.A. va Foresters.

BECAME INCENSED

Mr. Cogswell said that the Canadian body became incensed at the failure of the association to elect Thomas Murphy, head of the federation, as a vice-president Murphy up to the time of the meeting last week, had been a vice-president of the N.B.A. since the entrance of the Canadian federation into the national body four years ago.

Cogswell said that Murphy, at the meeting last week had a good chance for election as president of the N.B.A., but that some of the members of the association opposed naming him because he was not from any boxing organization in the United States. Cogswell said that he had expected the action and was not in the least surprised and did not blame the Canadian body for its withdrawal.

AN UPSET

The victory of Captain Haney, paying \$\frac{8}{2}\$ Iz4 for a \$2\$ mutuel ticket, provided the most interesting feature at Hawthorne although it was not in the best race. Captain Haney beat out Indra and Sphere, both held at better odds. The fifth race, the best on the card, went to Joy Ball in a close finish. Wacker Drive took second and Montanaro third. Joy Ball came up on the outside in the last sixteenth of the one and one-sixteenth mile race to snatch victory.

Good Shepherd, owned by Mose Goldblatt, turned in the best race over a heavy track at Latonia to take the Mamil Valley purse. Always within striking distance, Good Shepherd took the lead from Judge Murphy in the last furlong and wen handily. Judge Murphy took second and Martinique third.

WOMEN GOLFERS WANT OWN BODY

Players of United States Desire to Have Control of Own Sport

Chicago, Oct. 24. — A national wemen's golf association, with independent control of all golfing affairs of the fair sex in America, is the goal toward which feminine golfdom is headed, according to expressions of leaders at yesterday's annual meeting of the Women's Western Golf Association.

This body is successfully independent men and always has been, but the national championship is now held by direction of the United States Golf Association, a golf contest for the women of the country held by the

A SPLENDID IDEA

A SPLENDID IDEA

Among those who favored such a plan
was Mrs. Robert M. Cutting, retiring
president of the Women's Western, and
a member of the women's advisory
committee of the U.S.G.A. Mrs. Cutting, who gave way to Mrs. Paul Walker of Chicago as president of the
W.W.G.A., said after adjournment that
she spoke only personally, but that it
appealed to her as a splendid nea to
have the women in full control of their
own affairs, even down to city contests.

Dunc Munro To Retire Next Year

Montreal, Oct. 24.—The Montreal enthusiast of Victoria, who for the past Herald yesterday said Dunc Munro, sturdy defence star of the Maroons, sional under Ray Ball at the Fircrest announced that this would be his last golf Club, Tacoma, has accepted the year in hockey. He plans to go into the brokerage business. Munro has been a big winner in the stock Santa Montca, Cel:

GOES SOUTH

TEAMS STRONG

Last Saturday the Navy and Pirates met in a friendly game which ended in a 5-3 victory for the former. Play was close throughout the tussie and the outcome of future games between these two teams will be in doubt until the final whistle. On the whole, the Navy had a much heavier team than their opponents, but the lighter men showed a speed which offset any advantage the Navy size gave them.

Another game last week between the Old Boys and the University School gave enthusiasts an opportunity to see the snappy school fifteen in action for the first time this year. The University boys were playing much heavier and more experienced men, but nevertheless they succeeded in holding the Old Boys to 8 draw.

A tussie between Victoria College and Brentwood veutled in a cuttern. Boys to a draw.

A tussle between Victoria College and Brentwood resulted in a victory for the latter team after the Victoria boys had led for the greater part of the game. Brentwood has not entered the intermediate league this year, but the College is considered one of the best bets for the honors in that class. Their defeat at the hands of the Brentwood boys does not signify that the team is at all weak, since several of the best players on the College squad were unable to compete in the game. TOMMY FIELDING

PROSPECTS ROSY FOR RUGBY SEASON; FIRST GAMES THIS WEEK-END

keen competition is expected between the five teams which will form the loop.

The line-up of the Victoria College team shows several of last year's stars back in the game. Patterson will probably hold down the fullback's position, while Gav Hume, Chuck Ruttan and F. Ellis will play on a fast and heavy three-quarter line. Hume and Ruttan were recognized as two of the best players in the league last year, and will doubtless help the College a great deal in the forthcoming series. Ted Robinson will play ball again this year. Ted has had lots of experience and has repeatedly shown his rugby brains in smart plays. He also packs a good boot and should hold the Blue and Gold boys materially. "Cubby" Godwin is billed to take the five-eighths position. Godwin made a fine showing on the team last year, and is counted as one of the best men. Mc-Hmodd, who was to have played five-lighths for the team, will be out of the game for some weeks with an injured ankle.

"Pinky" Gardiner, fleet wing three-

"Pinky" Gardiner, fleet wing three-"Pinky" Gardiner, fleet wing three-quarter for the University School, will again be on deck to help the boys, while "Allie" Lemarquand will be a load on any opponent's mind. Town-send is expected to hold down the full-back's place. Many other fast young-sters are striving for places on the team, and from the rugby ability they have shown in the light practices held at the school, there will be no dearth of material for a first-class organiza-tion.

mediate Scottish team, has several promising youngsters lined up for his squad as well as a few of the players who helped the aggregation last year. In Spence, Scotty Fraser, Burges, Ian McConnan, Hobson, Stewart and Taylor are some of the boys who will repersent this club.

"Sonny" Symmons is looking forward to a good season for the Wanderers. With Art Eagle playing wing three-quarter and "Torchy" Campbell hold-ing down the fullback's place, this team has the nucleus of a strong de-fence.

fence.

The Ex-High team is composed chiefly of members of the High School rugby team, and although the squad is light Coach Lister states that he has some fast men on his team who should give many of the intermediate players a lot of trouble in the coming games.

Golfer Kills Seagull With a High Drive

San Francisco. Oct. 24.—A seaguil was killed and a good drive was ruined on the Ingleside golf link here yesterday when a ball hit by A. Lacombe zoomed into the bird about 100 feet in the air. Lacombe picked up the ball and bird and kept both as proof of his story.

HAGEN-FARRELL MATCHED

Springfield, Mo., Oct. 24.—Walter Hagen, British epen golf champion, and Johnny Farrell, national open title-holder, will play in an exhibition four-some at Jopini Sunday, October 28, it was learned here yesterday.

Farrell and Hagen will have as their opponents Horton Smith, young Springfield golfer, who recently advanced to the semi-finals of the national P.G.A. tournament, and Ed Dudley, Los Angeles pro.

Klein, a Saskatoon amateur hockey product, made his debut as a professional last Winter at

Eddie Shore, prosperous Alberta debut as a professional last Winter at the tender age of seventeen the voungest puck-chaser to ever play youngest play y

Send Them Down Town on the Street Car

WHEN it is necessary for your children to go down town, to school, or to an outing without the pro-tection and watchfulness of an adult, send them on the street car-they're safe.

OUR employees are instructed to regard children as their personal charges. They will gladly see that children get safely off the car at their proper destination.

NEWS IN BRIEF | PRAIRIE INFLUX

The general offices of the British Columbia Telephone Company are be-ing brightened for the Winter months. Kalsominers are now at work in the main office, and will complete the re-decoration by the week-end.

A charge of disfiguring a city side-valk against Thomas H. Bradley was tood over in City Police Court this norming to allow the defendant to re-nove the signs which he admitted hav-

talk before the members of the Rotary Club at their luncheon in the Empress Botel to-morrow. Following the talk, the carnival committee will give a re-port. A short musical programme will be provided.

"The migration of Winter-holidayers from the prairies to the Canadian and Southern coasts would have been enormous this year, but for the low price of wheat and the fact that now so much of this year's crop is grading low," Mr. Gibbard said.

"Growers who though they had No. 2 wheat, now find that their grain is grading down to No. 6 or lower. Also much wheat has been frozen. This, of course, means a great cut in the price and their returns for the year. In many cases there won't be any profits. This means that many who had planned to come West for the Winter are now cancelling their trips.

EVERYTHING SPEEDED UP The Rotary Club will hold a supper dance at the Empress Hotel on October 30. Arrangements for the affair are in the hands of J. Fletcher and J. Macfarlane, who assure a fine entertainment to all who attend. Supper will be served at 7 p.m.

After one of the longest hearings in the local police court on such a count, J. H. Sykes was this morning dismissed on a charge of driving to the common danger. The case arose from an accident at the corner of Quadra Street and Caledonia Avenue.

Claiming \$85 for damage to premise operated as a car filling station, Howard Lillie brought suit against Peter Lanchick in an action opening in County Court to-day, H. A. Beckwith appears for the plaint!! Lanchick of conducting his own defence.

ANOTHER REQUEST Afterations to the extent of \$2,000 will be made by Gault Bros. of Vancouver to the Gordon Building, 749 Yates Street, the permit for the work being taken out to-day. Glass lumber partitions will be built on the main floor to provide suitable sites for stores.

A boy's bleycle, for the use of a widow's son who has been promised a lob if he can get a machine, is being appealed for by the Friendly Help As-

tough L. E. Gower, commissioner taking declarations for the city rs' list, kept open office at the Hall for two hours extra last night, four householders availed themes of the opportunity to revister, office of the city clerk will renopen between 7 and 9 o'clock The office of the city clerk will remain open between 7 and 9 o'clock nightly in addition to normal business hours for the purpose of taking declarations until October 31, when the voters list will be closed at 5 p.m. J. A. Angus, a special commissioner for the taking of declarations, has added over 1,100 names to the list. Many who have paid their road tax and completed every other formality precedent to registration have failed to apply formetission on the list. Only seven days remain in which registration can be effected.

R. G. Allison Succumbs to Inis well known here.

He came to Victoria eleven years ago from Winnipeg with D. R. Bremner and the two lived here together for some time until their families moved out to the Coast to join them. Mr. Straughen was the victim of a hit-and-run driver in Seattle eighteen months ago and had not been well since. A deep gash in his forchead when the body was found on the beach, indicated, police juries Received in Collision With Auto

An inquest into the death of R. G. An inquest into the death of R. G. Allison, who died yesterday afternoon from injuries received when he was knocked from his bicycle in an accident at the corner of Government and Discovery Streets yesterday morning, will be held to-morrow afternoon at 4 o'clock, it was announced this morning by Coroner E. C. Hart.

Mr. Allison passed away at 2.05 o'clock yesterday afternoon, after being unconscious for seven hours, following the accident. He suffered severe concussion and a fractured skull as a suffered severe concusion and a fractured skull as a suffered in his forenead when the body was found on the beach, indicated, police said, that he was the victim of a seizure or had tripped in the underbrush on the edge of the shore and plunged face down among some stones.

His wife survives him.

PROBATES ISSUED

issued in the Supreme Court this week were as follows:

K. P. T. Wood, late of Astoria. Oregon, who died at Astoria on December 5, 1925; British Columbia estate, \$9,438.

Mary Dempster Jeffery, late of Victoria, who died at Victoria on April. 13, 1928; estate. \$1,065.

Edward Woodford Smith, late of Victoria, who died at Victoria on September 24, 1928; estate. \$4,505.

William M. May, late of Victoria, who died at Phoenix, B.C., on March 1, 1910; estate, \$1,000.

Edward Burdette Garrard, late of Port Alberni, who died on active service in Prance on October 31, 1917; estate, \$1,250.

Charles Richardson, Ontario probate resealed; British Columbia estate, \$150; total estate, \$44,000.

SERVICE WITH FLYING BOATS NOW PLANNED

Western Canada Airways Consider Victoria-Vancou-"Modern machinery is revolutionizing life on the prairies. The combines
are speeding up harvesting and doing
the whole operation at one step. This
is cutting down the demand for harvest
labor and enabling the farmer to deliver his wheat earlier and clean up.
Now the grower whirls his wheat to
market in a three-ton truck traveling
forty miles an hour. It used to take
a couple of days to haul a load of
wheat forty miles." ver-Seattle Air Line

Plans for the establishment of a mai Plans for the establishment of a mail and passenger air service, using figing boats, between Victoria, Vancouver and Seattle are now under consideration by the Western Canada Airways, according to information received here this morning. Although the mail service may not be in operation before early next year, the passenger service may start in the near future.

The Western Canada Airways operated several Boeing fiying boats during the Summer patroling the fisheries on the coast of British Columbia. These flying boats are now available for the tri-city service.

Eastern officials of the parent company are due in Vancouver within the

Another request for mad work was brought before the Provincial Government to-day when the Public Works Department was asked to classify and nard surface the Campbell River road between the Pacific Highway and White Rock The bad condition of the road has been the source of frequent complaints recently it was pointed out and heavy rains made the road rough for practically the entire distance. The fact that it is impossible to maintain the thoroughfare in anything like good shape during most of the Summer is used by residents received at the department who are ready for tests. Regina, six; Saskar of its being classified by the Provincial Government and hard surfaced.

Motorists Warn Cabinet Gas Tax Boost Is Unwise

FOR B.C. HIGHWAY

Increase in the gasoline tax, above the existing levy of three cents per gallon, would be extremely unpopular with the average citizen of British Columbia Premise Talmia P wifth the average citizen of British Columbia, Premier Tolmie and members of the Cabinet were last night warned by George E. Housser, president of the Automobile Club of British Columbia, at a dinner held at the Beach Hotel and attended by the Premier, Attorney-General Pooley, Hon. W. C. Shelly, Minister of Finance; Hon. S. L. Howe, Prayingial Secretary, H. Des. and Attorney-General Pooley to give

Mt. Housser appealed to the Premier and Attorney-General Pooley to give cities legal authority to control pedesirian traffic. He suspessed the suspense of the control of t

knocked from his bicycle in an accident at the corner of Government and Discovery Streets yesterday morning, will be held to-morrow afternoon at 4.0 clock, it was announced this morning by Coroner E. C. Hart.

Mr. Allison passed away at 2.05 o'clock yesterday afternoon, after being unconscious for seven hours, following the accident. He suffered severe conclusion and a fractured skull as a result of striking his head on the pavement when knocked from his bicycle.

MISUNDERSTANDING

The accident occurred, according to police, through a misunderstanding between the victim, riding his bicycle, and R. Waterhouse, driving an automobile. Both swerved to miss the other but went in the wrong direction and collided. Knocked from his marchine, Allison's head struck the parement heavily. The police partor responded, taking the highways.

L. Howe, Provincial Secretary; H. Despatch of Twigg, M. P. P.; James H. Beatty, that the pare part of the Automobile Club to provincial executive.

MR.P.P., and about thirty members of the Automobile Club provincial executive.

The dinner was arranged by the Automobile Club to permit the views of the motorists of the Province to be informally presented to the Cabinet. George E. Housser occupied the chair, from the work in the word of the following the influx of tourists to this Province. Proposed by A. W. Cruise of Vancouver Premier Tolmic said:

"The Government is faced with big problems in road work. It is no longer only a question of laying roads, but a questioning of widening, cutting off shape of the province with the rest of Canada and the Pachine, Allison's head struck the parement heavily. The police partor responded, taking the holived man to a classification of the defining with the rest of Canada and the Pachine, Allison's head struck the parement heavily. The police partor responded, taking the highest province and the province of the

STOCK MARKET FINANCIAL NEWS GRAIN MARKETS

TO-DAY'S GRAIN MARKETS

Winnipeg Oct. 24.—Wheat: Export sales Canadian wheat overnight and this morning, either direct from this market or from seaboard was estimated close to two million bushels. Buying against this business was reflected in both the cash and future markets and prices were mostly higher throughout the day, although the bulges were not held as offerings were very liberal. The peof being good sellers on the scale which finally filled the demand Opening prices were one quarter to one-half cents lower, but the market quickly firmed up on the good bulying by exporters and scaboard houses and prices on the extreme bulge were about three quarters above last night's close, sli of which was lost later.

In the cash market there was an excellent demand for No. 4 wheat and for No.

of which was lost later.

In the cash market there was an excellent demand for No. 4 wheat and lower grades with spreads running from one quarter to three quarters better than at the close yesterday, with efferings somewhat light. The demand was poor for No. 3 and higher grades with spreads—unchanged. There was also considerable short covering based on the estimated reduction of the Alberta wheat crop issued by the provincial Government last Saturday afternoon and the belief now prevails that

WHITNEY LETTER

(By Branson, Brown & Co. Ltd.) New York, Oct. 23 Whitney of The Wall Street Financial Bureau says today:

COMMENT

"Union Carbide, by the establish- A ment of a new record yesterday clearly points to a continuation of the advance which will establish the stock above 200 to-day, and thereafter advance it rather rapidly an additional is ten points or so. One of the factors is responsible for the advance of Union in Carbide likewise affects Vanadium Steel, a since it is practically an owned subsidiary which is responsible for some of the startling developments in the tenencial and steel field in which the two companies are establishing their is leadership. Vanadium is a purchase under 90, and Carbide under 200.

"In the oil group, Superior Oil has now crossed 10 and I am quite confident, crossed it for good. You were advised when the stock was below 10 that it would double in price. For all practical purposes, it will double its present selling figure. The advance in Sinclair has been resumed and the stock is a purchase below its high of the year.

"I expect American Can to share the

STEEL COMMON

quota of new high prices for all time were established this morn-

common which went to a new high

other ten points to a new high of

other ten points to a new high of 29934.

The copper section of the list provided more than its proportion of new highs, some of them being: Anaconda 8934, Cerro de Pasco 106½, Chili 6034, Granby 75% Kennecott 119¾, Miami 2034, Nevada 33¼, Calumer and Arizona 120½.

A few of the oils began to show top-breaking tendencies, with Sinclair running up to a new high of 34% and Skelly to 31½.

Among the other new highs were Mathleson Alkali at 167; Simmons at 92%, Union Carbide at 199¼, Stewart Warner at 109, and Ludlum Steel at 84.

New York, Oct. 24.—The evening edition of The Wall Street Journal says: Steel took the leadership of the market this morning advancing into new high ground. Bullishness in the took was a supported by the market the second new high ground. Bullishness in the stock was emphasized by the weekly trade reviews which spoke of the fun-damental strength of the iron and steel market and also reported that railroad equipment inquiries were in-

steel market and also reported that railroad equipment inquiries were increasing.

Restricted buying by the equipment companies on account of the limited demand from railroads for new rolling stock and motive power has been the feature of the steel market for some time. And it is argued that should the railroad come into the market for equipment on an active scale, the steel situation would rapidly become even more satisfactory than it is now. The strength in Steel common however did not last through the session.

There was some irregularities around a mid-day in the higher priced industrials and late in the session Chrysler and Briggs were under the influence of selling which was absorbed on the scale down. Feature of the afternoon was the pily volume advance in Sinclair of properties.

Copper shares displayed fairly even strength. Rock Island in the rails was particularly strong, buying being based upon excellent carnings and the anticipation of higher dividend. Call money opened at six per cent, the rate went to 6½ in the afternoon.

STOCKS

COAST COPPER

Montreal, Oct. 24.—Coast Copper was the feature on the Montreal market to-day. The stock has recently been hanging in the upper thirtles. Yesterday it closed up at 46. To-day it opened strong and on heavy buying climbed to 56, which is within about four points

on heavy buying climbed to 56, which is within about four points of its all-time high.

Big Missouri, another British Columbia mine, also being operated by the Consolidated, was another feature of the market here to-day running up aronud 70.

Noranda, however, was in bad form to-day, selling from 57.25 down to 54.25. A flash from Rouyn told of an explosion in the Noranda smelter, but there are no details yet.

The market as a whole continues to show a sound underton. The substantial amount of profit-taking which is coming in is being taken in an impressive manner. Investment buying continues on a good scale.

The proposed split-up in Steel of Canada and International Nickel has drawn attention to Consolidated Smelters.

A new and what promises to be a most important factor now looms in the nickel-lituation. Primarily, through long association with Mond, which has for many years paid dividends to English shareholders, London is distinctly interested in the present development. An indication of what they think of the possibilities over there was obtained to-day when London paid up to 180 for International, and in Glasgow fales were reported at Taking Nickel, the effect upon New York will be interesting.

put through on this market.

Report published from Vancouver yesterday that Marmot River Gold Mines were closing for the Winter was denied by a telegram to-day from H. J. Bush, secretary, who states they are running double shifts in two tunnels, Meharey, Roe & Company announced to-day.

Mr. Bush also telegraphed that he and his associates have closed a deal for the Wayside Gold Mine and the Fergusson property at Bridge River. The Dominion Metals Investment Company Limited, in which many Victoria people are interested, is participating in this transaction.

VANCOUVER
MINING MARKET

Vancouver, Oct. 24.—Bear forces had their innings in everything except Pend Oreille, Big Missouri, Noble Five. Kootenay Florence and Georgia River on the floor of the Vancouver Stock Exchange this forencon. The sudden snowfall that closed down the diamond drills on Rufus-Argenta and George Copper for the Winter was the signal for selling and raiding and resulted in a brick market at weak prices. Rufus-Argenta held unexpectedly well around 23 and 24, bet George Copper fell as far as \$4.

Morton-Woolsey, reporting a widening of their latest ore strike, was firm around 7¼, and Snowflake did not come up to expectations on news of refinancing, and fell to around 98 to \$1.01.

Kootenay King had a bad break, sliding off as low as 44.

refinancing, and fell to around 98 to \$1.01.

Kootenay King had a bad break, silding off as low as 44.

Topley was sold at 48 and 49. Kootenay Florence at 20 and Big Missouri at 65½ and 66.

Pend Oreille ranged around \$11.75.

Whitewater dropped another five points to 146.

The oils were weak, evidently awaiting definite news from the fields.

Both heavy buying and selling are noted in recent dealings, and the whole market, has the appearance of boiling underneath, with ability to respond quickly to good or bad news.

Oregon Copper went on the Victoria Stock Exchange to day for open trading. The stock opened at 75. A total of 11,600 shares changed hands on the floor at this morning's session at prices from 74 to 80. The stock closed at 73.80.

Most of the orders filled to-day came by wire from the outside, chiefly Portland, Seattle and Vancouver. The stock is listed only on the Victoria Exchange at present and all orders from other cities are put through on this market.

Report published from Vancouver yesterday that Marmot was all to be very favorab to Kootenay King stockholders.

Additional unofficial reports; occurring the George Copper property; which is said to be very favorab to Kootenay King stockholders.

Additional unofficial reports core remains and all orders from other cities are put through on this market.

Report published from Vancouver yesterday that Marmot sand high-grade coming in at foot wall to-night.

Vancouver, Oct. 24 (Stobie, Forlong Meharey, Roel.—According to reports from the Howe Sound Company's Britannia Mine have taken over the development work at Kootenay King. This evidently means that the Howe Sound Company is to proceed at once with proving up this property, which is located east of the famous Sullivan Mine at Kimberley, B.C. Diamond drilling is said to have indicated deposits resembling those of the Sullivan. The terms of the option taken by Howe Sound are said to be very favorable to Kootenay King stockholders.

Additional unofficial reports concerning the George Copper property in the Portland Canal district indicate that the exploration work being done by the Consolidated Mining and Smelting Company is exceeding expectations. Diamond drills have been at work all season and every drill hole is said to have indicated values in copper, silver and gold ranging from moderate widths up to 100 feet, and over. Control of the company is held by Consolidated.

Levels eight, ten and eleven at Whitewater Mines have been driven steadily westwards on the main vein, developing new ore since an estimate was made last Winter that the ore in the main vein was sufficient to insure fifteen years' operation of a mill of 125 tons daily capacity. New ore is also reported developed for 500 feet in a cross fracture between the twelfth and fourteenth levels.

Revenue Consolidated Mining Company has awarded a contract for driving 600 feet of tunnel on the No. 2 vein at the Independence property in the Portland Canal district.

Vancouver, Oct. 24 (Solloway Millis, P. F. Castle Co.)—It is renorted here.

Vancouver, Oct. 24 (Solloway Mills-R. F. Castle Co.)—It is reported here, but not confirmed, that Big Missouri has 100,000 tons of high-grade ore blocked out that will average around \$60. It is further stated that blueprints and copy of channel assays will be available in a few days.

son It is further stated that blueprints and copy of channel assays will be available in a few days.

PRICE RAISED

EARNINGS UP

New York, Oct. 24—Howe Sound Company in the first nine months of 1928 earned \$3.81 a share, com-pared with \$3.40 in the correspond-ing period of 1927.

Trail Ore Receipts

Atlantic City, Oct. 24 — No effort should be made to enlarge the powers of the Federal Reserve Board until after careful study of the entire credit situation and disconsideration. Of the probable effect of such enlarged powers on economic conditions generally, thenry R. Hayes of New York, President of the Investment Bankers' Association of America, said here.

"Investment bankers generally are vitally interested in the credit situation and we are hopeful of some solution of the present money stringency problem," Mr. Hayes said. "Since May the tight money market in the United States has resulted in a loss to investors in the bonds of about four points. However, few if any bodies could have done any better work than the Federal Reserve system has done, particularly during the last ten years."

Holders of investment securities need have no fear of any break in the stock market, Hayes said adding that he had no reason to expect any such disorder and was merely discussing the possibilities from a theoretical viewpoint.

Delegates to the convention said that

Stock Exchange May Increase Membership, First in 50 Years

New York, Oct. 24—With its facilities swamped by the wave of specula-tion which has swept the country, the New York Stock Exchange is consider-ing increasing its membership for the

Ing increasing its membership for the first time in nearly fifty years.

Membership, arbitrarily limited to 1,100, has not been changed since November 12, 1879. Then forty seats were sold to the highest bidders at an average price of \$14,000 each, to pay for enlarging the building. Three years ago a proposal of the governing committee, yesterday appointed Warren B. Nash, Allen L. Lindley, Richard Whitney, Walter Johnson and Edgar Boody a committee to study advisability of an increased membership and report a method for putting it into effect.

Because of its desire to maintain strict discipline over members the exchange is not likely to create associate memberships such as exist on Parls and London exchanges.

BOY IS DROWNED

Greatest Trade Boom Since War Coming In

1929, Economist Says New York, Oct. 24—Speaking before the New York Credit Men's Association at the Hotel Commodore, Paul Clay, economist of Moody's Investors Service, predicted that after some readjustment of credits next year, business should enter upon the greatest ness should enter upon the greatest boom since the war. Almost the only important defect in the business out-look now is the inflation of financial credits, he said, and when once this has been eliminated, industry should be in a position to advance rapidly. The diversion of funds from brokers' loans and speculation back into trade' and production should act as a power-ful stimulus.

loans and speculation back into trade and production should act as a powerful stimulus.

"During the post-war eras of prosperity." said Mr. Clay, "the prices of commodities and goods have not risen much and inventories have not grown fat; but during the next boom after this credits readjustment, we should witness real bull movements in goods prices.

"From November, 1927, to Pebruary, 1928, inclusive, uninvested capital accumulated in, the hands of investors, owing to the fears of an advance in rediscount rates. Then late in February, when this huge accumulation began to be invested in stocks and bonds, there was almost a buyers' panic. Security prices surged forward with great rapidity in the most enthusiastic buying movement witnessed since the McKinley bull market.

"Virtually all of the unused bank deposits and credits in the United States were employed in this movement directly or indirectly to buy securities, especially stocks. Idle gold reserves were fully re-smployed to sustain this large increase in bank loans and deposits. Thus occurred one of the most dramatic reversals of credit conditions in history; and in the process the plethora of capital, which so powerfully influenced financial markets, from 1924 to 1927, inclusive, was suddenly eliminated."

Drastic business depressions, such as those of 1921 and 1907 are a this and the such process the posits.

from 1824 to 1927, inclusive, was suddenly eliminated."

Drastic business depressions, such as those of 1821 and 1907, are a thing of the past, according to Mr. Clay. He maintained that our new financial system should so modify them as to make them relatively harmless. This new system consists in the mobilization of credits by the Federal Reserve Banks, and the mobilization of capital by our enlarged investment banking facilities; in a higher type of business ethics and in greater managerial efficiency.

"The present trade activity has attained such momentum that the boom should go considerably farther this year and the activity should remain almost undiminished during the

this year and the activity should re-main almost undiminished during the first few months of next year, he said. In spite of the advisability of mild precautions against such irregu-larities as may be inclidental to a de-flation of financial credits, Mr. Clay said that the situation could be sum-marized in the single sentence, "Don't be a bear on business." **Unearthed in China**

BIG NEW DEMAND BEHIND NICKEL

Peking. China, Oct. 24. — Chinese newspapers yesterday published a proclamation issued by Gen. Chang Hsueh-Liang, ruler of Manchuria at Mukden, in which he warned China and Manchuria at plot to restore the Manchu dynasty.

The proclamation charged that Chang Tsung-Chang, governor of Shantung until ousted by the Nationalists, was planning a come-back from his retreat at Port Arthur. He would head a royalist army with the aim of establishing the former "Boy Emperor," Huan Tung, on the dragon throne at Peking.

Chang Hsueh-Liang accused Chang Tsung-Chang of seeking to ald the deposed dynasty and of having held several secret conferences with the Anfu Party and royal delegates. The plan, the Manchurian ruler said, was for White Russians to form the nucleus of the royal army.

"Friends of Huan Tung at Tientsin said the former royal family had no knowledge of the alleged plot. Toronto, Oct. 24 (By R. F. Castle)
—Solloway, Mills & Company say:
"There is more than merger news
behind Nickel. The true story is
that new processes have been perfected for the refining of the metal.
It is said that the metal dominates
the steel trade to-day. Nickel is
going into all steel that is used in
a commercial way, such as automobiles, railway equipment, household
wares and even into jewelry. Our
information is that the nickel deposits of Sudbury are worth many
times the present market prices and
there is no question but that Canadians have control."

H. E. Hunnings, president of H. E. Hunnings and Company of Victoria and Vancouver, is in Vancouver on one of his usual visit to his Vancouver branch.

J. H. Gillespie, head of Gillespie, Hart and Todd, who has been in Seattle since the first of the week, returned to Victoria this afternoon, to complete some transactions in connection with a mining company of which he is president.

SEEMINGLY safe with teeth so white, 4 our of 5 after forty, and thousands younger, find themselves victims of the disease of neglect—Pyorrhea.

This grim foe of health ignores the teeth and attacks the gums.

So take this precaution: See your dentist every six months and use the dentifrice that does far more than keep teeth clean.

Every morning and every night.

Every morning and every night, brush your teeth with Forhan's for the Gums.

As a dentifrice alone, you would prefer it. Without the use of harsh abrasives it restores seeth to natu-

ral whiteness and protects them against acids which cause decay.
And in addition, if used regularly and in time, it helps gums to resist Pyorrhea by keeping them sound and healthy.

Get a tube of Forhan's: Use this dentifrice morning and night.

dentifice morning and night.
Teach your children this good
habit which will protect their
health in years to come. Also massage your gums daily with Forhan's,
following directions in bookles
that comes with tube. Two sizes—
35c and 60c.

Prince's face: the prospect was too beautiful to contemplate: to avoid the scaffold and be with his lovely wife and children again.

"Do notforget ito smile as you go away with Mr. Barham," Hassan said as they moved towards the door. The likeness between your Highness and my unworthy self is greater. I am told, at those times."

Seymour spent that evening in putting all his affairs in order and preparing for his journey. The funds with
him were more than ample. Nearly
four thousand pounds, with the two
thousand which Hassan had given him
in exchange for his cheque.

And to-morrow the great hazard was
to be attempted! Some times Seymour
thought it must be doomed to failure,
and that he would have to pay the awful penalty.

TOWY & HAL COCHRAN - PICTURES & KNICH

was on the other side of the fire.

"Oh, what fine chestnuts!" chattered Mrs. Bushytail when Uncle Wiggly brought her those that hadn't popped. "I shall make a lovely pudding," and she did and Johnnie and Billie had some that night.

So this teaches us that though we may be so poor that we have no money to buy gold wash rags still we can be happy by going barefooted in the grass. And if the eye of the needle doesn't blink at the spool of thread I'll tell you next about Uncle Wiggliy and the rustling leaves.

MOTHERS THEIR CHILDREN

to take a closer look and saw what the brown things really were. "Stones to pop at that rabbit," the Bob Cat had called them.

brown things really were. "Stones to pop at that rabbit," the Bob Cat had called them. "Well," silently laughed Mr. Longears, "they are going to pop all right, but they aren't stones. The Bob Cat thinks they are, and so does the Fox. But those brown things—well, they'll soon find out what they are."

'The Fox and Bob Cat were talking between themselves as to who should have the first nibble off Uncle Wiggily's ears.

"I ought to bite first," mewed the Bob Cat.

"Why should you?" asked the Fox.
"Because I found the brown, popping stones and gave you some and soon we'll throw them at Uncle Wiggily and knock him out so we can easily nibble him. I should bite first."

"No," said the Fox. I am your company and company should always be treated first."

"Well, all right, let it go that way," mewed the Bob Cat.

And while the Bad Chaps were talking. Uncle Wiggily reached around the edge of the fire with a curved stick and poked closer to the blaze some of the brown "popping stones," as the Bob Cat had called them.

All of a sudden there was a loud "pop!" and something hit the Fox on his soft and tender mose.

"Hi! Who's throwing things at me?"

Copyright, 1928, Associated Edited the sound in the property and something hit the Fox on his soft and tender mose.

"Hi! Who's throwing things at me?" NAUGHTY BEFORE COMPANY

One Mother says:

My little girl had a babit of heing naughty and acting "cute" when I took her places. To break her of this I left her at home once when I went to a party. On my return. I told her about a nice little girl that got to go because of her quiet behavior and of her manners when dessert was served.

My child took it very seriously, promising to be good the next time. Now she acts very well, more as a matter of pride than fear of the penalty of staying at home.

New Radio Rules Are Announceá

Washington Oct. 24.—Commissioner O. H. Caldwell of the United States Radio Commission, has advised C. P. Edwards. Canadian director of radio, that under the reallocation programme which is to become effective througheat the United States on November 11, "no station in the United States on a channel shared with Canada. exceeds 500 watts power," and that no station within approximately 250 miles of the border is using more than 250 watts.

"On the United States-shared channels," Mr. Caldwell telegraphed Mr. Edwards, "the commission has established a policy of granting to three times the night power for use during daytime until local sundown."

Hamilton, Ont., Oct. 24 — The first cod was turned yesterday and a start made on the construction of the new buildings for McMaster University to be built here. Albert Matthews, chairman of the board of governors, turned the service of the matter of the work, expected to cost \$2,500,000.

Where To Go To-night

Not Easy to Acquire

"Success," says Fritz Kreisier, world famous violinist, is not easy to acquire, and if it does come at an early age it is apt, to a certain extent, to have an injurious effect on the artist, limiting the free development of his act, which needs a stimulus for full expansion. I enjoyed only very moderate success until I was about thirty-four or thirty-five, and my success has been at its highest only during the last nine years. Yet when I think of the days when I was twenty-one I feel certain that my technical equipment was just as good then as it is to-day. Of course, certain things can never be acquired until one is, matured. Every day one discovers new outlets, new glimpses, for the field of art is so enormous and its sphere so wonderful and unlimited. There are compositions I have played hundreds of times, and it seems to me that I know them thoroughly, that I have explored every meaning, every aspect, every mood; and yet quite suddenly I discover something new, something I had never imagined before. This garden of surprises is the very beauty of art, for one never knows what new aspect will be suddenly revealed to the soul."

Fritz Kreisler will appear at the Royal Victoria Theatre for one night only. Saturday, October 27.

BALIOL HOLLOWAY IS GREAT ACTOR

Will Appear Here Shortly at Royal in G. Bernard Shaw Plays

Maurice Colbourne's all-British company, in plays by Bernard Shaw, will have as its star London's most famous classical actor. Ballol Holloway. Mr. Colbourne, who has from the first promised the best, is making good in full measure by introducing this famous and gifted actor to Canadian audiences in Canada.

Many Canadians have undoubtedly seen Bilol Holloway not only in England but during his visits as a guest star at the Theatre Guild in New York City in 1927, when he played Sir Colenso Ridgeon in Shaw's "Doctor's Dilemma" and "The Great Kham" in Eugene O'Neill's "Marco's Millions."

"Except for the four years of the war. Ballol Holloway has given his life to the theatre. He has been magnificently schooled in the best atmosphere of the English classical stage and has not only played the great leads 'in Shaw and Shakespeare, but in some of the best-known classics he has actually portrayed every male character. A year ago, before he ever dreamed of coming to Canada, he told the New York press, who asked him, that his favorite roles were William, the waiter, in "You Never Can Tell" and Morell in "Canadia," He will also be seen in Victoria as William Shakespeare in "The Dark Lady of the Sonnets."

Personalities On Movie Row

Lily Damita danced with Prince George of England before H.M.S. Dur-ban salled away from California re-cently. Lil is French. She is working opposite Ronald Colman in Joseph Conrad's "The Rescue." Eleanor Boardman, who is Mrs. Vidor, is back in Hollywood with her baby, who is a year old, a girl, and

Fine Homes

Fine furniture makes fine homes, homes in which an air of luxury pervades and in which it is a joy to live. Such furniture is always on display at our store solid in quality, fine in workmanship, and beautiful in design.

PACKARD CUSTOM EIGHT

K NOWING all that Packard has previously provided in fine car transportation, the heightened luxury of the new Packard Custom Eight has amazed the motoring world.

The characteristic beauty of Packard lines is refined and enhanced in the new Custom Eight. Deeper, more luxurious cushions—richly upholstered and scientifically designed for divan-like comfort—are provided. The famous Packard Straight Eight power-plant, with its sturdy, nine-bearing crankshaft, has been further refined—made still more powerful, smooth and responsive. But such improvements were anticipated.

It is the new Packard Shock Absorbing System, built into the chassis and oiled daily by Packard's Instant Lubrication System, which has surprised the industry and the fine car public. This unique

System makes the Packard Eight literally and without qualification the easiest riding car in the world—as well as the safest. It provides driving ease and riding comfort so new and exclusive that there is nothing with which to compare it. And it must be experienced to be appreciated.

beyond your expectations

When will you drive the Packard Custom Eight as our guest? We want you to know the thrill of Packard Straight Eight perform-ance; to know riding and driving comfort beyond your highest expectations.

Ownership may be easily arranged. We will fairly appraise your present car and accept it as cash. If of average value it may make or exceed the down payment. The remainder, if you wish to purchase from income as so many do, can be apportioned in convenient monthly payments.
